

Financial Analyst

Full time/permanent, London

An exciting opportunity to work in a high growth clean-tech company based in Central London. You will be working with the company directors and alongside the accounting, marketing and sales department to collect, analyse and visualise data for key internal and external stakeholders.

Responsibilities

- Analyse and report companywide financial and performance data
- Develop and maintain dashboard reporting, interpret and communicate KPIs and trends
- Assist operations and sales teams with budgeting and profitability analysis
- Create effective investment marketing material
- Assist with applications for grant and debt funding
- New business proposal modelling and forecasting
- Assist management with ad-hoc tasks

About you

- Strong knowledge of Excel formulas and VBA
- Experience with database management, SQL preferred
- Experience with reporting and investment marketing
- Highly analytical and detail orientated with a curious mind
- High self-drive and ability to work as part of a small team
- Effective and clear communicator

Benefits

At Big Atom, we pride ourselves in nurturing an inclusive, supportive and social company culture. You will be joining a team of highly ambitious and talented people who take pride in their work.

- Salary of up to £38,000 depending on experience
- Regular socials and team lunches
- Pension scheme
- Dog friendly environment
