

Business Development Internship

Full time, London or Cheshire

Big Atom is a start-up recycling company developing an efficient and financially sustainable process to recover raw materials from end of life rubbers and plastics. We are designing a chemical recycling process that will enhance our existing UK recycling operations to achieve Circular Economy. Our vision is to operate an end-to-end solution for polymer waste at scale.

The Role

We are a growing team of enthusiastic and sustainability driven individuals seeking a driven business development intern to join us in our London office or at our Cheshire operating site.

- Assisting company management with various projects to grow the business
- Help create investment marketing material and reports for internal and external shareholders
- Conduct market research in the recycling sector
- Work alongside marketing, sales and accounting on various projects
- Assist the expansion team with sourcing machinery, land and contractors

About you

- Undergraduate degree or final year student in Business, Marketing or Finance
- Passionate about the environment and sustainable solutions
- Strong written and verbal communication skills
- Working knowledge of Microsoft Word, PowerPoint and Excel
- Previous work experience in sustainability beneficial

Timing

Ongoing, between 3-6 months

Benefits

At Big Atom, we pride ourselves in nurturing an inclusive, supportive and social company culture. You will be joining a team of highly ambitious and talented people who take pride in their work.

- Salary of £1,500 per month
- Regular socials and team lunches
- Upon completion of internship, possibility for a permanent position at Big Atom
